-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Status of the Claims

1. Claims 1-34 are pending in this application, wherein claims 5, 11, and 13-14 are canceled; new claims 15-34 are added.

Response

2. Since there are 20 new claims are added; claims 17-23, and 32-34 are directed to a navigation system, claims 15, and 24-31 are directed to a method of vehicle navigation.

These 2 sets of claims are restricted.

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-4, 6-7, 16-23, and 32-34 are drawn to a navigation system for a vehicle, classified in US class 701, subclass 213.

II. Claims 8-10, 12, 15, 24-28, and 32-34 are drawn to a method of vehicle navigation; however, this method may only requires “obtaining information”, “displaying a map of an intersection and an arrow” (wherein that arrow is changing color(s)) – this is merely a subject of presentation on a computer screen, that does not need to be related to vehicle navigation – e.g., display a map; furthermore, these claims methods do not require to get information from GPS (as in system claims) - US class 701, subclass 209.

4. The inventions (group I and group II) are distinct by above definitions, each from the other because of the reasons specified in section 3.II. above:

5. Inventions Group I, and Group II are related as a navigation system, and its method of use. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process.

(MPEP 806.05(e)). In this case, (1) confirms that group I is directed to a method of use a

navigation device that can also be used to practice a different navigating step on a laptop computer such as the example given in part 3. section II.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Note: New claim 15 is directed to a system that depends on claim 8; however, claim 8 is a method claim. A correction is requested.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 571-272-6759. The examiner can normally be reached on 9:30 am - 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, THOMAS G. BLACK can be reached on 571-272-6956. The Rightfax number for the organization where this application is assigned is 571-273-6956.
